

MACHINES FOR
BATTERY PRODUCTION AND SPECIALISED
MECHANICAL ENGINEERING

Sometimes less is more:

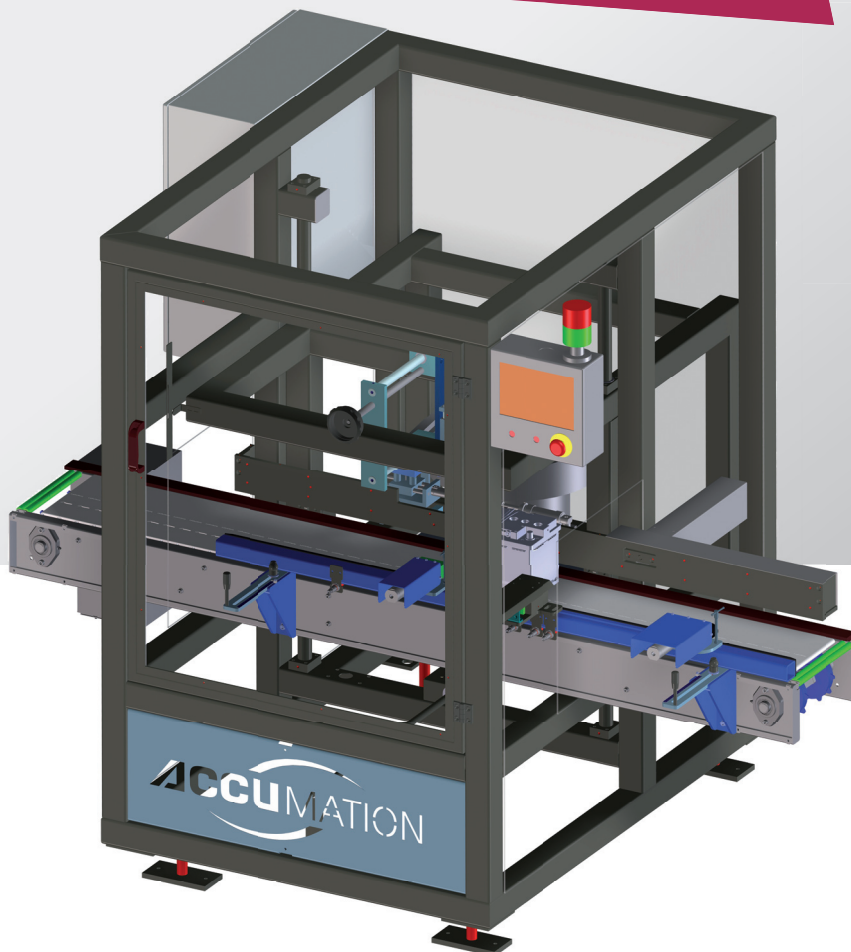

Plug setting machine BASIC

ACCUMATION has responded to requests from numerous customers and developed a plug setting machine for small output volumes.

The compact and robust Basic offers all of the features needed to safely and precisely fit screw plugs onto batteries. Additional functionalities can be added to the plug setting machine at any time.

Benefit from the following advantages:

- + Compact, simple, robust
- + Up to 5 batteries/minute
- + Fully automatic operation
- + Short changeover times
- + Different plug and battery types
- + 100 % acid-resistant material

MACHINES FOR
BATTERY PRODUCTION AND SPECIALISED
MECHANICAL ENGINEERING

Numerous available options allow you to extend the BASIC's functionality as needed, e.g.:

- Testing station
- Reject station
- Hopper
- Life cycle management
