

MACHINES FOR
BATTERY PRODUCTION AND SPECIALISED
MECHANICAL ENGINEERING

High-precision, fully automatic scale for the production of AGM and VRLA batteries.

When it comes to producing high-quality AGM and VRLA batteries, high-precision battery weighing systems are indispensable. Accumation has developed a fully automatic scale for this purpose.

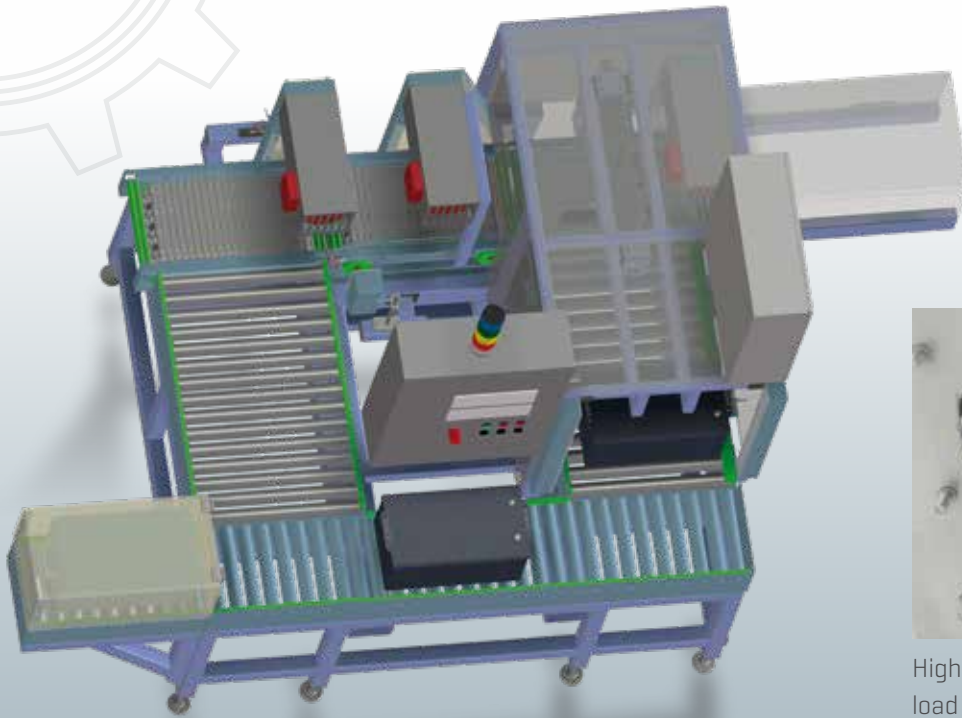

Your benefit:

- + Accuracy up to +/- 4 g and a maximum weight of 75 kg
- + Cycle times of up to 6.5 batteries/min.
- + Integrated DMC scanner
- + Data exchange interfaces
- + Integrated push off device for NiO batteries
- + Ergonomic feedback system for NiO batteries
- + Graphic display of weighing results

High-precision and acid-resistant
load cell

EVERYTHING FROM A SINGLE SOURCE

Thanks to our integration into the **PÜTZ GROUP** and the resulting **synergy effects** we are able to offer you not only battery production machines but also the appropriate testing technology to test surfaces, for dimensional accuracy and completeness.

Good reasons for ACCUMATION ...

... we take your production on the road to success because we have the technology you need.

**We look forward
to hearing from you!**
