Complete finishing lines for battery production –

maximum process stability and consistent quality

Modular, fully integrated system components form the foundation of high-performance finishing lines for battery production. With over 30 years of experience, we support you throughout the process and handle the implementation as a turnkey system partner – from development through to commissioning.

Your benefits at a glance:

+ Performance & output:

- High throughput up to 12 batteries/min (fastest plug setting machine on the market)
- Flexible configuration for 4–10 batteries/min

+ Process stability & availability:

- Robust machine design for continuous operation
- High system availability and stable processes thanks to reliable control and mechanical architecture
- Minimized downtime

+ Quality & yield:

- Integrated defect detection to reduce scrap
- Consistent, reproducible cell quality

+ Integration & scalability:

- Fewer interfaces thanks to end-to-end line integration
- Scalable system architecture for growing production requirements
- Customized plant designs available upon request

+ Battery types & applications:

Suitable for starter, traction, and industrial batteries (flooded, EFB, AGM)

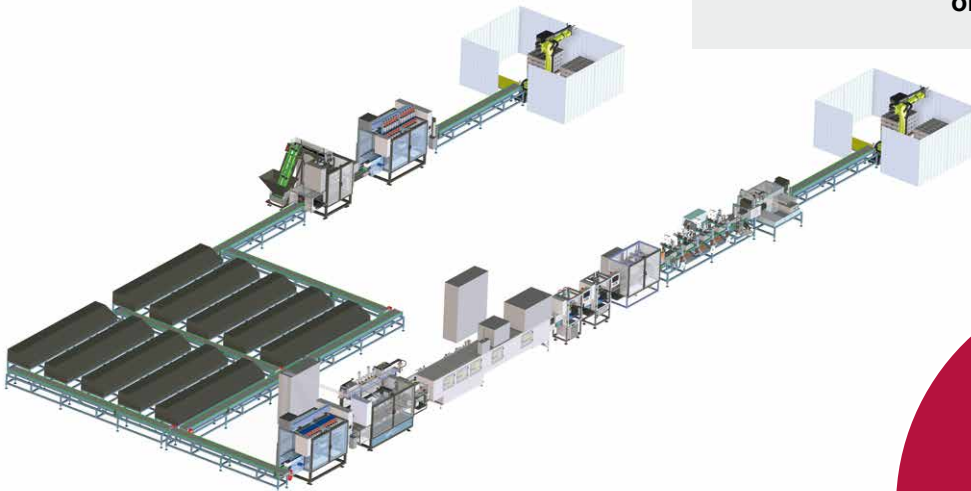

+ Service & support:

- A single point of contact throughout the entire project
- Global service, support and remote maintenance

Equipment for your battery finishing line:

- Palletizing robots
- Acid filling machine
- Formation bottles mounting
- Formation tubs
- Acid levelling machine
- Plug setting machine
- Battery washing and drying system
- High rate discharge test machine (PLT)
- High voltage leak test machine (HVT)
- Open circuit voltage test machine (OCV)
- Brushing and lubrication system for battery poles
- Battery labelling machine
- High-precision, fully automatic scale for the production of AGM and VRLA batteries
- Marking station
- Antistatic spray machine
- Test system for optical final car battery inspections
- Automated battery air-blast device
- Charge eye assembly system
- Terminal cap assembly system

Further systems for your battery finishing line on request.

Pütz Group – a strong association of specialists.

Our network of experts optimizes your production for maximum efficiency.
