

Assembly and testing workplace for aluminium strips

Your benefits:

- + **4 worktables of aluminium sectioning** (arranged in a U shape) for specific work steps
- + **At the assembly workplace** manually controlled pneumatic and hydraulic tools are used to assemble functional elements in pre-processed aluminium extrusion pressed sectioning
- + **The Control system releases tools as the product dictates**
Tools are individually suspended on flexible spring balancers
- + **Successful assembly is checked at the weighing workplace**
by weighing the parts before and after assembly
- + Each part is then labelled **at the marking workplace**
- + **A flexible tensioning system ensures that items to be worked on are tensioned reproducibly**

Assembly and testing workplace for aluminium strips

Technical details:

Dimensions (W x D x H)	approx. 3,500 mm x 3,850 mm x 2,200 mm
Total weight	approx. 600 kg
Capacity	approx. 1.2 kW
Pneumatic connections	max. 6 bar
Control	Siemens SIMATIC S7

We offer comprehensive services and know how:

**Machines
for the production of**

Starter batteries
Traction batteries
Industrial batteries

**Advice +
Analysis**

On-site in your company

**Technical service +
Customer service**

Remote maintenance
Worldwide

Everything from a single source:

Thanks to our integration into the **Pütz Group** and the resulting **synergy effects** we are able to offer you not only battery production machines but also the appropriate testing technology to test surfaces, for dimensional accuracy and completeness.
