

22 BATTERY-LABELLING MACHINE

ACCUMATION

MACHINES FOR
BATTERY PRODUCTION AND SPECIALISED
MECHANICAL ENGINEERING

Function and characteristics

- **High performance**
Labelling takes place during the production run, on up to 20 batteries/minute
- **Flexible**
Labelling on the front, back and top, printing with barcodes or other data
- **A wide range of formats**
Roll sizes up to 400 mm, booklets up to 3 mm, widths up to 150 mm
- **Precision**
Exact label positioning [$\pm 1,5$ mm]
- **Automatic barcode verification**
during the production run
- **The latest technical standard**
for optimum quality, available with Siemens or Allen Bradley controllers

22 BATTERY-LABELLING MACHINE

MACHINES FOR
BATTERY PRODUCTION AND SPECIALISED
MECHANICAL ENGINEERING

Technical data

Machine type	Labelling machine
Usable battery types	for all common car and truck batteries
Throughput	max. 20 batteries per minute
Dimensions of batteries	
Length / Width / Height	175 mm – 562 mm / 125 mm – 280 mm / 150 mm – 280 mm
Mass	12 – 65 kg
Dimensions of the machine	
Length / Width / Height	8 000 mm / 2 225 mm / 2 150 mm [varies depending on equipment]
Electrical connection	3 x 400 V AC / N / PE, 50 Hz
Control voltage	24 V DC
Connection power	8 kW
Operating pressure	6 bar
Mass of the machine	approx. 1 500 kg

Our goods and services = Your benefit

- Worldwide technical and customer service
- Long experience in battery plant design
- Individual system solutions for your production
- Comprehensive advice and on-site analysis

Good reasons for ACCUMATION ...

... we take your production on the road to success because we have the technology you need.

**We look forward
to hearing from you!**
