

Plug setting machine

Your benefits:

- + Processing of various plugs in a machine feasible
- + Automatic sealing of accumulators using screw plugs or pushplugs
- + 100% control of screw closure via a separate checking station
- + Exclusion station for reject batteries
- + Servo electric positioning system
- + Quick change over
- + Pneumatic or electric screw drivers available
- + 100% acid resistant

Plug setting machine

Technical details:

Battery type	all vehicles
Plug types	all plug types possible
Capacity	up to 12 batteries/min. (2-head) up to 8 batteries/min. (1-head)
Dimensions (W x D x H)	3,000 x 2,000 x 2,400 mm
Conveyor belt height	850 mm +/- 50 mm
Conveyor belt width	200 mm – 300 mm
Electrical connection	400 V, 50 Hz
Control voltage	24 V
Compressed air	6 bar
Material	completely acid-resistant, stainless steel acid resistant plastics
Control	Siemens / Allen Bradley

We offer comprehensive services and know how:

**Machines
for the production of**

Starter batteries
Traction batteries
Industrial batteries

**Advice +
Analysis**

On-site in your company

**Technical service +
Customer service**

Remote maintenance
Worldwide

Everything from a single source:

Thanks to our integration into the **Pütz Group** and the resulting **synergy effects** we are able to offer you not only battery production machines but also the appropriate testing technology to test surfaces, for dimensional accuracy and completeness.
