

## Battery terminal lubrication machine

### Your benefits:

- + Automatic lubricating of battery terminals
- + Precise dosing by a lubricant storage and dosing system
- + Suitable for car and truck batteries
- + Manual or automatic adjustment available

**Battery terminal lubrication machine**

**Technical details:**

|                                       |                                         |
|---------------------------------------|-----------------------------------------|
| <b>Battery type</b>                   | all vehicles                            |
| <b>Battery dimensions (W x D x H)</b> | max. 515 x 285 x 250 mm                 |
| <b>Capacity</b>                       | 10 – 12 batteries/min.                  |
| <b>Max. dimensions (W x D x H)</b>    | 2,000 x 1,200 x 2,000 mm                |
| <b>Conveyor belt height</b>           | 850 mm +/- 50 mm                        |
| <b>Conveyor belt width</b>            | 300 mm                                  |
| <b>Electrical connection</b>          | 400 V, 50 Hz                            |
| <b>Control voltage</b>                | 24 V                                    |
| <b>Compressed air</b>                 | 6 bar                                   |
| <b>Material</b>                       | stainless steel, acid-resistant plastic |
| <b>Control</b>                        | Siemens / Allen Bradley                 |

**We offer comprehensive services and know how:**

**Machines  
for the production of**

Starter batteries  
Traction batteries  
Industrial batteries

**Advice +  
Analysis**

On-site in your company

**Technical service +  
Customer service**

Remote maintenance  
Worldwide

**Everything from a single source:**

Thanks to our integration into the **Pütz Group** and the resulting **synergy effects** we are able to offer you not only battery production machines but also the appropriate testing technology to test surfaces, for dimensional accuracy and completeness.
