

Battery air blast device

Your benefits:

- + Automatic blowing out of remaining water of the degassing well
- + Stable, adjustable battery guide and stopper system ensures that the batteries are fed to the station individually and positioned precisely
- + Air blast station for blowing out the openings by compressed air, strength and duration are adjustable

Battery air blast device

Technical details:

Battery type	all vehicles
Capacity	8 batteries/min.
Battery length	175 – 400 mm
Battery width	125 – 200 mm
Battery height	165 – 283 mm
Battery weight	12 – 25 kg
Dimensions total (L x W x H)	2,000 x 1,100 x 2,400 mm
Wight	550 kg
Material	completely acid-resistant stainless steel 1.4571, 1.4539; plastics PP und PVC, special protection of all non-acid-resistant components
Control voltage	24 V DC
Consumption	2 kW
Compressed air	6 bar
Control	Siemens / Allen Bradley

Everything from a single source:

Thanks to our integration into the **Pütz Group** and the resulting **synergy effects** we are able to offer you not only battery production machines but also the appropriate testing technology to test surfaces, for dimensional accuracy and completeness.
